

IF YOU HAVEN'T A HOBBY WELL JUST STEAL ONE

ADVICE OF DR. CARLOS MACDONALD TO THOSE WHO HAVE LEISURE
TIME—NEW YORK TAKES THE PALM FROM BOSTON—"TRI-
UMPHANT ENERGY" IS RAGE JUST AT PRESENT

New York, Mar. 10.—New York has just about wrested the palm from Boston as the home of fads.

Hardly a week goes by in the metropolis that some new-fangled craze is not sprung on a new expectant public. The authors come from all over the earth. Persians, Hindus, English women of title, women from Western camps, Bostonians and native sons and daughters, all with some "essence" that will reduce the feverish pursuit of happiness to a leap pipe chase.

But wherever they hail from, the creators of these cults and vagaries wait until they reach this fertile spawning ground before giving their "points" to the world. Next to a financial business proposition, there is nothing that will throw quicker in New York than some new-fangled psychic bunk. Only a few days ago a bunch of Hindus began preaching that a certain brand of music, extracted from a queer stringed instrument, was the cure for all ills. They are still all rife in select gatherings of soul perfection aspirants.

This week it is "triumphant energy" that is being put forward as the means of becoming beautiful and rich, with incantations, pearls teeth and a fullness of all things sweet. "Discipline" is Mrs. Mary E. Chan. She unfolded her plan to a soulful group at the Berkeley Theatre.

"Triumphant energy is open to all," she exclaimed. "It is bubbling within us, but we have not learned how to utilize it. There are barriers and layers of infinite energy at our command. There are two streams, one is poverty, disease, and distress. The other is health, happiness and inspiration. You must get in the way of the current of wealth and health and you will be wealthy and healthy. It's simply a question of what we think. I drop my diamond ring in the dust. It becomes dirty and has no sparkle, but the sparkle is there as soon as I wash it. When we think right, we are simply washing the diamond."

This and a lot of other things Mrs. Chan revealed to her audience with a ready answer to all their skepticism. And then the inevitable. "I trust you will give liberally," she concluded, in announcing the collection, "for that is the only way to keep up these meetings and to get the triumphant energy."

Must Find Vent.
Dr. Carlos Macdonald has a possible explanation of why New York is such a hotbed for these vagaries: the large number of men and women here who live in idleness. These persons must have some vent for their energies and being unable to go into the usual occupations they give themselves over to these esoteric pursuits.

"If you have a hobby," Dr. Macdonald says, "you are on the high road to health and sanity, no matter how

depressed mentally or physically you may be. If you haven't a hobby, beg, borrow or steal one, whether it's collecting beetles, old coins or postage stamps. Join the company of illustrious persons who dedicate their leisure hours to the pursuit of some harmless object of amusement or curiosity.

"Many of our rich women lead betterly existences which bore them to death. They should have some real occupation, some genuine responsibility, some definite duties and some hobby, in order whether it's philatelic or golf, collecting snuff or sugarcane, in some new found mental processes."

Some Good Fads.
All the fads taken up by New Yorkers, however, are not of such questionable value as "triumphant energy." Club women in this city are now trying to make the lot of the homestead girl in this vast harem waste a bit easier to bear. If the necessary funds can be found a clubhouse for such girls will be established. Mrs. Arthur Albee Brooks, president of the Gotham Club, is one of the leaders in this movement.

"A great harm is caused to young folk in this city by loneliness than anything else," Mrs. Brooks believes. Naturally the most lonely ones are club women in this city are now trying to make the lot of the homestead girl in this vast harem waste a bit easier to bear. If the necessary funds can be found a clubhouse for such girls will be established. Mrs. Arthur Albee Brooks, president of the Gotham Club, is one of the leaders in this movement.

"A club, a sort of all-landiness society, managed by club women who would take a real interest in providing proper amusement for the members would be just the thing to give these homestead girls the companionship they crave. The society would provide a home for workaday girls, to whom the city is a sort of cold, cheerless nightmare."

Josephine Walton, a young Southern teacher, who is head of the Students' Home Circle, has been suggested as the head of the all-landiness movement. Miss Walton has already worked wonders in this line, and has made her circle the home for many girls who have come to New York to engage in special studies.

Hot, sweet and savory styles for the young men—and conservatively for the business man at Kelly & Moore's.

FOND OF ARMS
Clara: "I see Cynthia has decorated her room with guns, pistols, swords, and the like."

Gora: "Yes; she always has been a great girl for having arms about her."—Till-Bits.

Hold on to your shoe money until you have seen The Slater shoe at Kelly & Moore's.

TO EXPLORE THE WEST

Parties for Peace River and Rupert
Will Leave Montreal on
A Long Trip

Montreal, Mar. 13.—Early this spring two expedition parties will be fitted out from here, one to go to the Peace River, near Prince Rupert, and the other to push its way into the Peace River country. They are being sent by Corporation Agencies, Ltd., for foreign clients and it is not unlikely that their reports, when they return this autumn, will mean the investment of some foreign capital in Canada.

Both parties will be composed of competent engineers. The Pacific coast party will report upon a new industrial undertaking which it is proposed to establish near Prince Rupert. The other exploring party, which will be under the control of E. H. Bruce, the civil engineer who recently made the preliminary survey of the Hudson's Bay railway route for the Dominion Government, will make a report in the interests of a French syndicate of certain proposed undertakings in the Peace River district.

Lady Evelyn's Fine Skating.
Her Excellency, Earl Grey, the governor general, has been having a busy time these past few days—busy at least from a sporting and social standpoint.

The Vice-regal party which took place in the Victoria rink, Lady Evelyn was the whole show on the ice. The Vice-regal party which took place in the Victoria rink, Lady Evelyn was the whole show on the ice. The Vice-regal party which took place in the Victoria rink, Lady Evelyn was the whole show on the ice.

After the skating his excellency tried a hand at curling, and he, with Colonel Percy Sherwood as a partner, played an exciting double against J. L. McGill and W. J. Taylor. The ends were played, the governor-general's rink winning by 12 shots to eight. This is his excellency's last winter visit to Montreal. He will be here again for the horse show and then again for the races. He is not going north to the Arctic ocean, as he had planned. Lord Lascelles, his A.D.C., says, and will sail for home in the autumn.

Operators Still Restless.
The rather sudden resignation of H. E. Vautlet, the engineer, from the Quebec Bridge commission, has given rise to all sorts of rumors in regard to the future plan of construction of that famous and ill-omened structure.

It will be recalled that Hugh Lumsden, the chief engineer for the government of the Transcontinental resumed somewhat similar circumstances. After the resignations had been made public the same excuse was offered to the people from the floor of the house of commons concerning both men. The minister of railways said that Lumsden had resigned on account of ill health and overwork. The minister of public works announced the same thing in regard to Mr. Vautlet. Both are walking around as chipper as may be. Mr. Vautlet will say nothing, but it is safe to predict that the last has

not been heard of the matter, and there are going to be fireworks of some description before the plans of the bridge have actually been decided upon.

The Merry Widowers.
John H. Roberts, secretary of the Dominion Alliance, has largely developed a "bump of trouble" somewhere on the back of his skull. Everywhere he goes he sets up against it in one form or another, but Roberts is a thick little chap and can take all the hard knocks that are insistently coming to him. His last narrow escape was from a gang of thugs, who, while he was in the street, were waiting for a special warrant and supported by private detectives, made a raid on the National hall in the east end of the city, where the Merry Widow ball was in progress. Whist? The merry widows and widowers were busy engaged in stepping the little fantastic Roberts and his men dashed past the sentry at the door and into the hall. Roberts and his men dashed past the sentry at the door and into the hall.

Dr. John Dearborn, of Salem, well-known sociologist, said: "Nervous people are becoming very sensitive in their tastes if they expect a condemned criminal to choose his own mode of execution. There are other things that would act quicker than by electrocution. If it comes to that, 'Execution is supposed to be a horrible example to others and to act as a check on law breaking and murder. If death is made easy there is likely to be less fear of capital punishment.'"

Pittsburgh Oppose Plan.
Pittsburgh, Pa., Mar. 10.—(Owing to their Presbyterian training) residents are not in favor of permitting condemned criminals to take their own lives.

John Francis, warden of the Western penitentiary, when asked his opinion of the self-inflicted deaths, said: "It's strange I attended church this morning and heard a sermon on that very subject. You will remember when I was a member of the state legislature I voted for the abolition of the death penalty. If human life must be taken for crimes committed, I believe it should be taken by legal process and no person should be permitted to do his own execution."

Addison C. Guebert, director of charities, former sheriff of Allegheny county, said: "My experience has been that it would be difficult to get condemned criminals to take poison or to accept death at their own hands."

PLAIN WATER IS
HIS ANAESTHETIC

N. Y. Surgeon Declares Patients Have
Been Able to Leave Office With-
in Hour

New York, March 13.—Using plain Croton water as an anaesthetic, Dr. Joseph P. Saphir, attending surgeon of the People's Hospital, has performed more than one hundred operations recently. He declared the other day he could count that water he had been satisfactory in every particular. Eight of the operations were performed last week.

Dr. Saphir said he had been using plain and sterilized water to produce local anaesthesia for more than three years and that the use of water for this purpose has been adopted by the New York Post Graduate Medical School and Hospital.

It is now past the experimental stage, he said, for long it was found to be an efficient anaesthetic in minor operations, and, subsequently, in some delicate surgical work.

"The plain water anaesthetic is here to stay, and it will positively supplant the old way in almost every operation," declared Dr. Saphir. "When I began experimenting with it several years ago, I kept using a weaker and weaker solution of cocaine until I finally injected sterilized water. The result was most gratifying. At first I used only the reduced solutions of plain water on very simple operations, but gradually I learned that it was effective also in major operations."

"The entire procedure and operation of the water anaesthetic is based upon simplicity. The anaesthesia is obtained by filling up the tissue of any given point and producing a pressure on the nerve endings. The water is injected until the surface becomes glossy white in appearance. The only pain the patient suffers is from the insertion of the needle."

"The after effect, so common when chloroform or ether is used, is avoided. I have performed operations in my office, using the water anaesthetic, and the patients were able to leave their homes within an hour."

"Of course there are some operations directly affecting the brain and others of a similar nature, where the old way still remains in vogue. But we have had success with water in some very difficult operations—even in operations for appendicitis."

Dr. Samuel S. Gent now uses plain Croton water drawn from his clinic at the Post Graduate Hospital every Thursday afternoon. The anaesthesia process continues for from five to ten minutes."

Dr. Saphir was graduated from the College of Physicians and Surgeons in 1902. He won the class honors and received a medal.

COURAGE NEEDED TO TAKE POISON

Eastern Philanthropists Believe It
Requires More Courage to Take Poison
Than to Walk to the Gallows

Boston, Mass., May 13.—"A man like Socrates might be anxious to take a dose of hydrocyanic acid instead of waiting to be hanged, but the chances are such a man as Socrates would not find it easy to take a dose of death," said Charles E. Hatfield, mayor of Newton, chairman of the Republican state committee and philanthropist.

"I am not sure the measure proposed by the state commission of Nevada would lessen the fears of a person condemned to death," he declared. "I think a man would have to be a great deal braver to take the acid, knowing well its deadly effect, than to walk to the scaffold."

Dr. John Dearborn, of Salem, well-known sociologist, said: "Nervous people are becoming very sensitive in their tastes if they expect a condemned criminal to choose his own mode of execution. There are other things that would act quicker than by electrocution. If it comes to that, 'Execution is supposed to be a horrible example to others and to act as a check on law breaking and murder. If death is made easy there is likely to be less fear of capital punishment.'"

THE DANGER IN THE BUILDING SITUATION

With the commencement of the building season now only a few days away, the Edmonton contractors and the Edmonton building trades council are no nearer any agreement which will guarantee a peaceful and prosperous season.

In Calgary, where the National Builders' Association is supposed to hold the same way as it does in Edmonton, the master builders and the building trades have signed agreements covering the season, from which it may be taken that the national organization is not so violently averse to agreements as has been represented.

It is a matter of common knowledge in Edmonton that while the Building Trades Council is prepared for a fight if one is forced upon them, they are not seeking one, as it is also well known that somebody is advertising in Liverpool, England, for five thousand non-union builders, which two circumstances, taken in conjunction with the Calgary developments, make it appear that the Edmonton contractors are going out of their way to seek a test of strength in the building trade.

A building tie-up in the height of the season would be little short of a calamity in Edmonton this year. During 1911, more than in any other year, it is essential that there should be no disturbance in the building trades, but it is an absolute certainty that if the season is opened without agreements a strike will follow before the season is very far advanced.

Here, then, is a place where the Board of Trade could step in and justify its existence by bringing the parties together and securing an amicable agreement. They would undoubtedly find the building trades mechanics willing and ready to meet them more than half way, and if an effort made by a representative body such as the board of trade fails to bring the contractors even an admission that there is something to arbitrate, then the public will at least know where to place the blame for whatever hostilities may ensue.

PROVINCIAL VS. DOMINION CONTROL

As illustrated in the advantage to the cities of provincial over Dominion control of resources, there is something going on at Ottawa just now which furnishes an illuminating example.

Ottawa, like Edmonton, requires water power. Here is an extract from the Ottawa Free Press of recent date which shows how they go about securing it there:

Preliminary action to have the city acquire a water power of its own was taken by the municipal electric commission, when, on motion of Mayor Hopewell, seconded by Controller Hinchey, it was decided to ask the city council to request the hydro-electric commission to investigate, and take steps to secure for Ottawa a water power either in Ontario or Quebec. It is thought that the hydro-electric commission will be able to drive a better bargain for the city than the civic authorities themselves.

Note the difference. When Edmonton wants water power it must first find the power and then seek from the department of the interior the privilege of developing it.

When Ottawa wants power it merely notifies the hydro-electric commission of the necessity and the commission does the rest.

With the control of the provincial resources in the hands of the provincial government, the government would be in a position to create a commission board similar to the Ontario Hydro-Electric Commission, the business of which would be to protect the interests of the public with regard to water power in the same way that the railway commission protects the interests of the public with regard to railways.

The department of the interior, of course, has the power to do the same, but the fact that it has not been done and the fact that the department has not seen fit to survey or take stock of the water powers indicates pretty clearly that the cities of the west have little to hope for under the present arrangement.

What this province needs is control of its own resources.

THE DOMINION TOO CONSIDERATE OF TORONTO

Five thousand Toronto people crowded Massey Hall one evening last week, and after a lot of fervid old-flag oratory passed resolutions concerning the Dominion government for the reciprocity pact.

The following evening, in Atlanta, Georgia, Taft told an assembled crowd at a banquet that he had authorized the secretary of state to offer Canada free trade in everything, but that Canada would not accept, "because she has a protective system and is afraid of the competition of our better organized industries."

If there are any people in the Dominion of Canada in deference to whom Canada refused absolute free trade, it must be the people of protectionist Toronto. It certainly could not have been in deference to the wishes of the west, because the west is almost unanimously in favor of free trade and would accept joyously an arrangement which would remove absolutely the tariff barrier.

When the Toronto people rise to protest against an agreement which does not take the tariff off the things which Toronto makes but which merely lets the people who buy Toronto products sell their own in the best market, Toronto should have a care. Some day the west will rise as one man and demand that the Dominion government accept the offer of United States and wipe out the tariff barrier altogether.

When the time comes, Toronto will too late reflect that the Dominion of Canada has been altogether too considerate of the interests of Toronto in the handling of national affairs.

"THIS DATE IN HISTORY"

1638—Charter granted to the Ancient and Honorable Artillery Company of Massachusetts, now the oldest military organization in the United States.

1698—First service held in Trinity Church, New York City.

1773—George III gave his assent to the act restricting the commerce of Maryland, South Carolina, Virginia, Pennsylvania and New Jersey.

1812—James Edward Smith, who served several terms as governor of Connecticut, born in New Haven.

1830—Congress provided for a boundary line between Louisiana and Arkansas.

1838—Orsini and Pictet assassinated in Paris for the attempted assassination of Napoleon III.

1863—Federal fleet under Farragut made an unsuccessful attempt to pass the Confederate batteries at Port Hudson.

1867—Session of Russian Academy of the United States.

1879—Marriage of the Duke of Gloucester and Princess Louise Margaret of Prussia.

1901—Jonathan Harrison, twenty-third President of the U. S., died in Indianapolis, born in North Bend, O., Aug. 26, 1833.

1906—Susan B. Anthony, famous woman suffragist, died in Rochester, N.Y., born in Adams, Mass., Feb. 15, 1837.

1910—President Adams, of Nicaragua, declined to accept the United States as mediator.

"THIS IS MY BIRTHDAY"

Hugh John Macdonald, for many years prominent in Canadian official life, was born in Kingston, Ont., March 13, 1851, the son of the Rt. Hon. John Macdonald, prime minister of Canada. His education was received at Queen's College, Kingston, and at Toronto University.

He was admitted to the bar and for ten years was engaged in the practice of law in Toronto. He was elected to the House of Commons for that city nine years later.

In 1896 he accepted the portfolio of the department of the interior in the Tupper Ministry, but resigned office with his leader a few months later. Mr. Macdonald accepted the Conservative leadership in Manitoba, and formed and administered after the defeat of the Green Government in 1899. The following year he resigned office and has since devoted himself to his law practice in Winnipeg.

CROWDING THE LIMIT

(Calgary Herald.)
A reader of the Herald sends in a lettered copy of this paper in which he draws attention to a statement that a man died in New York "in his 770th year." He wants to know if it is correct. Not having the personal acquaintance of the man in question it is hard to say, but it would be safe to say that about four his that he was not any older.

BIG FLEET OF LITTLE VESSELS

Hampden Roads, Va., Mar. 12.—The biggest fleet of torpedo boats ever seen in Hampton Roads today, a long line rendezvoused here today. The fleet comprises eight destroyers, the Iroquois, Ilex, Tully, Paulsen, Preble, South, Fusser and Lamson. The vessels, which have been in southern waters the greater part of the winter, will be overhauled preparatory to engaging in the spring battle practice of the North Atlantic fleet.

MAJOR GENERAL HODGES RETIRES

SERVED IN SPANISH-AMERICAN WAR DURING WHICH WAS PROMOTED FOR BRAVERY

Washington, D.C., Mar. 13.—Major General Charles L. Hodges, for some time past in command of the Department of the Lakes, was placed on the retired list as of today, leaving behind him a brilliant record of efficiency through a long career in the army.

Gen. Hodges was born in Providence, R.I., in 1847 and entered the army as a volunteer and private in 1861. He was promoted to the rank of major during the war by the civil war. At the end of the war he was a sergeant major. In 1869 he entered the regular army and has since served continuously in active service, becoming a brigadier-general in 1897 and a major-general in 1904.

Gen. Hodges was in command of the Department of Dakota, with headquarters at St. Paul.

The prospective retirement of Gen. Hodges led to a vigorous contest in the early part of the winter for the vacant major-generalship. The contest was waged between friends of Brig. Gen. Arthur Murray, Chief of Cavalry, and those of Gen. Frederick Funston, who has headed the list of brigadier-generals for several years.

Gen. Hodges was advanced to the rank of major-general on an extraordinary promotion in 1904. He was promoted to the rank of major-general in 1904. He was promoted to the rank of major-general in 1904.

IN MEMORY OF DESPREAUX

Paris, Mar. 13.—The French Academy and the literary societies throughout France today held a solemn observance of the second annual centennial anniversary of the death of Nicholas Despreaux, the famous poet and translator and the intimate friend of Victor Hugo.

AMERICAN WAS WELL KNOWN IN ROYAL CIRCLES

DR. JOHN EVANS EMINENT BEYOND HIS PROFESSION—RECEIVED MANY DECORATIONS FROM NATIONS' HEADS—HAD FRENCH TITLE

Paris, March 10.—The fame of Dr. J. Henry Evans, Marquis d'Oyley, the American dentist, whose death was announced by a French cable, was world-wide.

Don Pedro, the former Emperor of Brazil, summoned him to his palace once and when he was in Brazil he was generally called, begged to be excused owing to the difficulty he found in leaving his work from Pedro's journey to Paris to consult the dentist. Garibaldi, the great hero of the Italian revolution, was one of his several patients in Paris.

Some days before the arrival of January 28, 1871, was concluded, the doctor would begin, "My friend Jones, then Minister Plenipotentiary of the United States in Belgium, came and told me of the arrival of his colleague Washburne from Paris."

Washburne, provided with a safe conduct, had left Paris surrounded by Germans, by way of Saint Cloud. What was his object in visiting Brussels? I did not try to find out.

"Jones, who knew that I was not friendly with Washburne, as he was a friend of my uncle Thomas, told me that an armistice would be signed in Paris within a week. Washburne, Jones added, 'has decided to remain in Paris at once.'"

"Quite impossible," Jones cried. "You cannot expect Washburne to allow you on his special train. I shall be his sole companion."

"In addition to being a master of the art of dentistry, Dr. Evans played a role in French court life during the brilliant period of the Second Empire. He went to Paris at the invitation of the Emperor, Napoleon III, who had already become the dentist and friend of Empress Eugenie. He never parted from his uncle, who was a portrait of him in many ways shows a resemblance to that of Alfred de Musset."

Dr. Evans was not long in Paris before he attracted the attention of the Emperor Napoleon III, whose confidence he had won. He was elected to the House of Commons for that city nine years later.

In 1896 he accepted the portfolio of the department of the interior in the Tupper Ministry, but resigned office with his leader a few months later. Mr. Macdonald accepted the Conservative leadership in Manitoba, and formed and administered after the defeat of the Green Government in 1899.

The following year he resigned office and has since devoted himself to his law practice in Winnipeg.

He was admitted to the bar and for ten years was engaged in the practice of law in Toronto. He was elected to the House of Commons for that city nine years later.

BISHOP MAES 65 YEARS OLD

Covington, Ky., Mar. 13.—Rev. Monsignor Maes, for more than twenty years bishop of the Roman Catholic diocese of Covington, celebrated his sixty-fifth birthday anniversary today. The bishop was born in Belgium and received his education in that country. Coming to the United States soon after his ordination in 1866, he served as a priest in Detroit for sixteen years before becoming bishop of Covington in 1885. Bishop Maes is one of the best known members of the hierarchy in America. He is the permanent president of the English-American Congress and a member of the board of directors of the Catholic University of America.

USEFUL STIFF NECK

"Good thing our bookkeeper has a stiff neck. He'll get this year's balance finished all the sooner."
"What! what has a stiff neck to do with it?"
"Why, he can't turn around to talk to the pretty 'till behind him!"
—Fingende Blatter.

WHY HESITATE?

An Offer That Involves No Risk For Those Who Accept It.

We are so positive our remedy will completely relieve constipation, that we offer it free of cost to all who will try it.

Constipation is caused by weakness of the nerves and muscles of the large intestines or descending colon. To expect cure you must therefore tone up and strengthen these organs and restore them to healthier action.

We want you to try flexal tablets on your guarantee. They are eaten like candy, and are particularly liked by children. They act directly on the bowels, and are free of all harmful ingredients. They have a neutral action on the other organs or fluids. They do not purgative cause any inconvenience whatever.

They will positively overcome chronic or habitual constipation and the physical and mental troubles which result from it. Try flexal tablets at our risk. Two sizes, 10c and 25c. Sold only at our store—The Rexall Store, A. Archibald.

Was Overcome.

"The director of the railway on seeing this document was thrown into a state of perplexity. He could not see how he could possibly be so deceived that a baggage car should be placed at my disposal. I would take my place in it half a mile from the station, and then it could be attached to the train."

"When I told the director that my wife was going to accompany me and one of my friends, the director said: 'You are travelling together, I said to my friend; that's delightful, and I asked Washburne, who stretched out his hand to me. You are going to Paris, in my train.'"

Permit Necessary.

"You know, of course," he replied, "that a permit is necessary to enter Paris."

"Don't be uneasy, I said, I have every permit necessary, and I went back to my wife and Legay."

A little later Jones rose and went toward a passage, making me a sign to follow him. Pretending to wait to speak to the landlady, I went and found Jones.

"You cannot possibly go any further," he warned me. "Washburne has just been denounced to the authorities certain spies who have taken places in this train in the hope of getting to Paris."

"I thanked Jones, and leaving my wife taking a cup of coffee, went to Washburne and Jones had not yet reached the desert stage. I took Legay to the police commissary. A little later Jones rose and went toward a passage, making me a sign to follow him. Pretending to wait to speak to the landlady, I went and found Jones.

War Is Just What Sherman Said It Was, Thinks Li'l' Jeff

By "Bud" Fisher

MONSTER AUTOMOBILE SHOW IS WANTED WHITE WOULD HAVE HIS TEAM TRAIN IN LEWISTON PLANNED IN CONNECTION WITH THE BIG EXHIBITION

MANAGER WHITE FIGURING ON TAKING HIS BASEBALL PLAYERS TO IDAHO TO PREPARE THEM FOR WESTERN CANADA LEAGUE SEASON—WOULD HAVE GAMES WITH GREAT FALLS, HELENA AND BUTTE AS WORKOUT IF UNION ASSOCIATION GETS GOING—IS TO TRY OUT SEVEN OR EIGHT PITCHERS AND CARRY TWELVE MEN.

If Manager Deacon White can arrange things with the directors of the club, the Edmonton baseball team will have its spring training at Lewiston, Idaho. It was at this place that Manager White had his youngsters in 1907, the first season in which Edmonton enjoyed league ball, and he is stuck on the climate there. The year he was there, the boys were in excellent trim from the jump and this means a lot.

Manager White figures that a training season at Lewiston would be particularly beneficial to his pitchers. The members of the club, while they have been mailed contracts, have not been advised as to the date for reporting. They will be notified by telegram, and the date of reporting will likely be about the twelfth of April. This would give the men about ten days of work at Lewiston and then exhibition games could be arranged with Butte, Helena and Great Falls, providing, of course, that Lucas and McCloskey are successful in organizing their Union Association. These exhibition games would net the club a neat sum and would materially reduce the expense of the spring training season.

Manager White will carry twelve players this season. His infield and outfield will be solid and the extra catcher will be a utility man who can jump into any position. That will permit of Edmonton carrying three pitchers and all of the trio will be reliable slabbies, fellows who can take their regular turn in the box.

AUTO GROWS FOR PUBLIC SERVICEWORK

The extent to which motor cars are entering into the service of municipal departments and public service corporations is shown by the reports of sales which reach the Cadillac Motor Car Company. These reports show, also, that the adoption of the automobile in such service is not confined to any particular location. For instance, within the last week, E. M. Varion, of the Cadillac Company, in Edmonton, has been informed that its cars have been selected by the city governments of Louisville, Ky., and Atlanta, Ga., and by two corporations of Vancouver, B.C.

In Louisville, the Police Department has added a Cadillac patrol wagon to its automobile equipment, in which Cadillac cars are used exclusively. For a year or more, the police of the Kentucky metropolis have had three of these cars in general service, using them for the quick transportation of officers to any scene of trouble about the city.

In Atlanta the chief of the department of construction will use a Cadillac to travel quickly from job to job, the work being widely scattered over 25 square miles of the city's area.

The British Columbia Electric Railway Company and the British Columbia Telephone Company of Vancouver have in stalled Cadillacs, the former for the use of the chief engineer and the latter for his general superintendent.

PLAN TAKING HOCKEY CLUB FOR EUROPE

In the departure of Aaron Rosenthal, of Ottawa, for the Old Country, the initial steps were taken for one of the most ambitious hockey tours that has ever been planned. The completion of arrangements will necessarily be slow, but should Mr. Rosenthal be received favorably by the rink proprietors on the other side of the pond, the Ottawa Hockey Club, champions of the world, will be taken over to England this fall, playing in all the big European cities, before the start of the National Hockey Association schedule.

This trip was contemplated last year, but owing to the fact that the Ottawas did not win the Stanley Cup, the tour was not pushed by the executive. Now, however, with their great N. H. A. record behind them, the Ottawas will make every effort to complete arrangements. The trip would be the greatest advertisement that the city of Ottawa has ever received and it is the intention of the officers of the club to ask for a civic grant, should they receive assurance from the continental rink managers.

The Ottawas would leave here about September and playing in the arctic rinks, would be in pretty fair shape by the time they returned home about the first of December. The Old Country athletic enthusiasts for years have been yearning for an opportunity to witness one of the first-class hockey machines in action, and with the proposed Ottawa visit, they will see Canada's best.

DEACONS TO BE BUSY

The Deacons hockey team will be kept on the jump this week. To-morrow night at the Thistle rink, they play the Silver Seven, of Toronto. They meet the Varsity city boys at Strathcona Wednesday night, and on Thursday and Friday they will tackle the Calgary Athletic club seven at the Thistle rink. Much interest has been aroused in to-morrow night's game with Toled and a large delegation will accompany the club to this city. As these games are to be practically the wind-up of hockey in Edmonton, a large crowd should be on hand to boost the Deacons, who have given the city a fine brand of hockey this season and deserve to be rewarded with handsome receipts.

MORAN AND McFARLAND

New York, Mar. 13.—The star event of the week on the local pugilistic calendar will be staged at the Fairmont Athletic Club to-morrow night. It will bring together Owen Moran, the sturdy little Britisher, and Percy McFarland, the Chicago lightweight, in a left-round, joint, no decision. Both fighters have completed their training. McFarland in this city, and Moran at Lakewood. With both men in good condition the battle is expected to be one of the liveliest seen hereabouts this winter.

SIX CLUBS HAVE FORMED THE HOTEL LEAGUE

THE ALBERTA, THE YALE, THE PENDENNIS, THE WINDSOR, THE SENATE AND THE QUEEN'S ARE GRANTED FRANCHISES—SEASON OPENS IN MAY AND WILL CONTINUE FOUR MONTHS—THREE GAMES TO BE PLAYED WEEKLY—OFFICERS ARE ELECTED, GARRISON IS OFFICIAL UMPIRE AND DEPOSITS ARE TO BE MADE TO INSURE SCHEDULE WILL BE LIVED UP TO—FINES TO GO TO PUBLIC HOSPITALS—TOM ROKES PLAYING FOX, WHILE BOB McDONALD HAS SOMETHING UP HIS SLEEVES—PAGE FISHER FIGURES HE HAS GOODS FOR SENATE NINE.

The Hotel Baseball League, composed of six clubs, was organized at an enthusiastic meeting Saturday afternoon at the Yale Hotel parlors. There were ten applications for franchises but it was deemed advisable that for the first season, it would be the wisest plan to make the organization one of but six clubs, the schedule to be drawn up providing for three games a week, each team thus playing weekly.

The six hotels granted franchises were: The Alberta, the Yale, the Windsor, the Queen's, the Pendennis and the Senate.

Officers are chosen. The Hotel League's affairs should be directed by a president, vice-president, secretary, treasurer, with an executive committee of one representative from each of the six clubs. Officers chosen were: President—Robert A. Leroy. Vice-President—Robert McDonald, of the Yale. Secretary—Thomas Rookes, of The Alberta. Treasurer—Carl Tinfold, of The Alberta.

Executive Committee. Alex. Chabot, of The Windsor. Norman McNeil, of The Yale. Thomas Rookes, of The Alberta. Page Fisher, of The Senate. Nat Bell, of The Pendennis. George Sutter, of The Queen's. Season opens in May. The playing season will open early

WALES DEFEATS IRELAND

Cardiff, Wales, March 13.—Wales had a decisive victory Saturday over Ireland in international rugby game to decide the championship. The game was played before thousands of people, but the result was not surprising. The score was: Wales 16, Ireland 0.

BOOSTS and KNOCKS

With a flourish of trumpets, the Calgary Alberian announces there is great possibility of the St. Mary's going to Winnipeg to play for the Allan Cup, and says:

"And that was all that was required to send the supporters of the St. Mary's to the city of the West, if such a place is located anywhere near Calgary. Trust Calgary to lay claim to every thing, even to the domain of eternal life!"

It would be some day for Edmonton if Treasurer W. D. Vincent, of the Western Bowling Congress at Spokane, should be called upon to affix his signature to the \$15,000 check in favor of the boys from home. Here's hope!

"Now that he's in again, let's get it and boost," says Sam Savage, relative to President Ekstrom. That's the proper dose, Samuel, you're a veritable Solomon in your views there.

After having had to pay for their own board all winter, most of them at some of the cheaper boarding houses, ball players will soon come into their own and be the guests of the managers on their trips away from home.

PLANNED IN CONNECTION WITH THE BIG EXHIBITION

WOULD PROVE BIG BOOST WITH AUTO MANUFACTURERS THROUGHOUT THE COUNTRY AND BE AN ADDED AND POPULAR ATTRACTION AT THE ANNUAL EDMONTON FAIR—SHOW WOULD ALSO AFFORD PROSPECTIVE OWNERS OPPORTUNITY OF GETTING FAMILIAR WITH MECHANISM OF CARS AND ACQUAINT THEM WITH MERITS OF MOTORING—PLAN MEETS WITH FAVOR.

Providing the plan meets with favor with officials of the Edmonton Exhibition, a banner Automobile Show will be conducted next August at the annual exhibition. The subject is one that has been under serious consideration for several weeks among motoring enthusiasts in Edmonton and within the next few days, action will be taken to ascertain the views of those in the say with the Exhibition company.

It is figured that an Automobile Show would be a splendid advertising feature for the city and would lead to the country at large that residents of this section are wide awake at all times and possessed of sufficient of the world's riches to call upon manufacturers to display their wares so they can decide upon purchases. It is an acknowledged fact that owners of autos will be doubled in Edmonton this year and that in 1912, approximately 250 automobiles will be purchased here. This is the inducement that will attract the attention of manufacturers and cause them to give their local agents the encouragement they are entitled to.

To prospective owners, the show would be a great thing in that it would afford them the opportunity of being explained the mechanism of cars, lessons that would stand them in good stead for all future time.

REGINA NOT SHOWING UP AFTER COIN PROPER VIM IN BOWLING

Regina is in fear that it may drop out of the Western Canada League and be without baseball this season. A report has been sent out that a meeting will be called by Manager Tom Letcher and that not one man was present at the appointed hour. It is stated that Letcher immediately sent President Ekstrom a telegram that unless more ginger was shown by Regina citizens, he would find himself compelled to withdraw.

Representatives of the City Baseball League are requested to be on hand to-morrow night at the Y.M.C.A. for the annual meeting.

What is expected to prove one of the most lively contests of basketball games of the season will be played to-night at the Y.M.C.A., when the Varsity and Wanderers come together for the first time in the three leagues. As both of the teams have met and suffered defeat at the hands of the Derris and that a defeat to-night will practically put the live out of the fray, followers of the game expect a strenuous battle.

Captain Frank Simonson, S. Schultz, C. E. Morris, Bill Matthews, Walter Blackett and Dan Knott, the five stars who will represent Edmonton in the big Western Bowling Congress at Spokane, left this morning for the scene of the fray. All of the boys are chock full of confidence and expect to return with a goodly share of the prize money. When the boys step out on the Spokane alleys, they will be so neatly attired that their presence alone would be sufficient to attract some publicity for this city. All will wear handsome white shirts, with the name Edmonton across the breast, and new and neat dark trousers and tennis bowling shoes. They will be a pretty bunch.

For the bowling tournament at Calgary, which is to follow that at Spokane, the following ten men were chosen to make up two additional five-men teams: Grant, West, Watson, Harmer and A. G. Smith, while the other team consists of Pine, J. White, Gardner, Letcher, and A. E. Scorsas.

HILL GETS A FAST ONE. R. B. Hill, the well known Edmonton sportsman, has just purchased a fast horse for the minor cause and his friends are confident he will succeed in springing a huge surprise on Edmonton horsemen when the racing season opens.

REAL ESTATE BULLETIN

For business purposes First Street, in the vicinity of the Market, has been practically "sold out" today, with further enquiry.

Between Jasper Avenue and the Track there is also enquiry but prices are now so high in that Section that they are practically prohibitive, for the present at least.

In Residential Property Delton has been the chief enquiry, as the Lots are Large and the Prices at present Very Low, while, with the advantage of the Street Railway on Alberta Avenue, it is readily accessible.

Business is still being done in Inglewood, Groat Estate and Glenora.

ALBERTA PARK

Have you seen the special ads. of our Selling Agents for this suburb, and have you acted upon their suggestion. "If not, why not?"

Today's Offerings Business Properties

A half lot on First St. north of Market... \$5000
A lot on Jasper Avenue, in Block 7, per foot... \$800
A lot and house on N. Mayo Ave.—South of Boulevard... \$2500
Lots on Spur Track, each... \$5500
A Solid Brick Hotel, centrally situated in city near station... \$90000

Residential Properties

A large 7-roomed modern house on 23rd Street... \$6000
A nine-roomed Modern House of fine appearance and well finished on corner lot—north of track... \$8000
A four-roomed Cottage on Thirtieth St. North of Jasper... \$3000
Lots in Delton up to \$225
Lots in Inglewood upward from... \$425

Farm Lands

Quarter Section, half mile from Scotford Station, per acre... \$16
522 Acres close to Fort Saskatchewan, well improved, per acre... \$40

Oil Stocks

These are recovering slowly from recent drop in price, but there is little or nothing doing at current figures.

Scrip

S. A. Veteran Scrip as we have before advised is more limited in quantity with a good demand, which is bound to create still higher prices in the near future.

We advise buying now, as we have a good supply of guaranteed S. A. Scrip on hand, as well as a small quantity of H. B.

Money

We can secure that loan you require on that farm, or for building. See us about it.

SUPREME COURT

This morning in the supreme court action was brought by the Melville company for the recovery of \$2827 alleged to be due from Goldsmith, the contractor for the Grandstand at the exhibition park. The action is brought on a lien note, and the city of Edmonton, for whom the stand was built, has paid into court \$2800, which it is stated is the amount due to the company. Certain deductions have been made by the city, and these are disputed by the company.

DISTRICT COURT CASES

In the district court at Vermilion on March 16th action will be brought by Judge Taylor for the recovery of the sum of \$255 alleged to be due in connection with a horse transaction. The plaintiff is William Aylwin of Vermilion.

The Byron-May Company have brought action against M. A. Brumby for the recovery of \$25.00, the price of sixty-six photographs alleged to have been purchased by the defendant. The case will be heard in the district court at Vermilion on March 16th.

W. A. Reid will bring action on the same date against W. J. Wallace for recovery of entire service fees amounting to \$20.

The action of Chas. H. Collins vs. W. B. Hayward for recovery of goods and chattels seized will also be heard at the sitting of the court commencing on March 16th.

REFUSES \$100,000 PER YEAR.

President of Northern Pacific was offered Presidency of Missouri Pacific at above figure but refused.

Howard Elliott, president of the Northern Pacific railway, and wife, seven in Alberta, and who is an old personal friend of Chas. H. Collins, president of the Missouri Pacific, has refused an offer of \$100,000 a year as president of the Missouri Pacific, neither with her husband nor with whom she has been so intimately associated for many years.

SPEND \$5,000,000 IN PEACE RIVER

American and Canadian Capitalists Purchase 500,000 Acres in British Columbia.

Vancouver, March 13.—On behalf of an American and two Winnipeg syndicates, H. P. Carper, of Winnipeg, has closed deals for the purchase of approximately 500,000 acres of land in the Peace River district of British Columbia.

The amount involved in these transactions was five million dollars. One of the Winnipeg syndicates is headed by Edward Brown of Winnipeg, who left for home to-day. Arrangements have been perfected for the purchase of a contingent of American farmers on the land.

RUMORED MANUEL WILL REGAIN THRONE

English Publication Avers That Royalists Will Succeed by End of 1911.

London, March 13.—The Pall Mall Gazette to-day, following up its story of Thursday about a monarchist plot against the Republican government in Portugal, says the Royalists hope for the end of this year to see King Manuel again enthroned. Senior Lord, the leading monarchist now living in this city, in an interview, said he was of the opinion that the monarchist cause was a real one, and that the monarchist cause was a real one, and that the monarchist cause was a real one.

Only the four men near the outer edge had a chance to run for as the slide was coming down the hill.

There is much confusion and the nine officers are mounting so strict a silence that the names of but one could be learned.

Paul Paulson, a widower, who leaves seven children, his wife died a month ago. The little one knew that something had happened to their father, and a little group near the scene of the disaster.

The pit was 125 feet deep and 75 feet wide, and the earth fell to the depth of 50 feet and shot out its rim 150 feet.
